THE BEAUTY OF THE MIND.

There's beauty in a rose-tinged cheek. And in a glowing eve, And beauty in the mortal form,— But these will fade and die.

There'r beauty, too, in silks and gems That hide the heaving breast; But richest robes and jewels rare Can not withstand Time's test.

It matters not though fairest face
Nor costliest robes we find,
Can we in word or deed but trace

It seems that this sprig of English nobility was invited to some days at the country house of a wealthy American, and late at night before retiring concluded to take "a bath, you know," and so directed by a servant he found his way to the bath-room, and turning on the warm water was soon enjoying at full length the delicious sense of relaxation of his aristocratic person and repose of his aristocratic as a more flagrant outrage upon public

Imagine his indignation when he was called upon to forfeit ten No noise, no fuss, no fluttering, no dollars. He swore he would never pay it, and hurried to his state room to buckle on his defensive armor. But he was met at the door by his spouse, outraged by the intrusion of a stranger, as she supposed, and admittance refused. He called himimpostor. He attempted to explain. It was useless. It is not true; they cannot.

CERRO GORDO MINES .- A correspondent of the Sonora Democrat, writing from Inyo county, furnishes the following concerning the Cerro Gordo mines:

The mines of this section are numerous

and valuable. The Cerro Gordo mines and furnaces, shipping from 10 to 12,000 pounds of bullion per month. The Front mine at Cerro Gordo, being estimated as worth \$1,000,000, doubtless an exaggeration, although it is very rich. The Eclipse mine is a very desirable piece of property. It belongs to an English company. This company has several other mines of importance and has set apart \$500,000 of their capital to carry out this speculation in Owen's River Valley. Their mill is situated on the east bank of Owen's river about twelve miles south of Independence, the company purchased the mine a year ago for \$150,000. The Kearsarge is located in the Sierra Nevadas, and is principally owned in Virginia city and Gold although a valuable mine.

SAN JOAQUIN CANAL AND IRRI-GATING COMPANY.

If this company would confine themthis company would comme themselves to canaling along the west side of the San Joaquin, they could use Tulare lake as a reservoir by drawing, say six feet from its surface, by which they could utilize the surplus water of the rainy season, for maintaining a navigable depth of water in their canal, during the whole year, from the lake to Sulsun Bay. This would utilize the water which has passed from the control of the agriculturist, and would develop a region, which, for lack of rain, is liable to otherwise remain a barren waste. Such an enterprise would be one worthy of encouragement from the people. It would do as much as a railroad toward developing the resources of this valley. The sooner, therefore, the work could be consummated the better for the inhabitants of this valley; and the better also for that other great mass home here in the future. But if this com-pany intends to lay claims, to the waters of the San Joaquin river at Millerton, to those of King's river at Centerville and we warn the people that it is not for re-claiming of the barren waste but for the taxing of the productive energies of the people that this company is operating for. The rivers run now just where they should run to enable the farmers to tap them. No hoar led millions are requisite to develop the resources of the soil. There is no given point within the eastern slope of this valley that may not be covered with water by an outlay of ten thousand dollars, so long as there is an adequate supply in our rivers. It is within the province of capital to aid in the development fithis State by training upon machinery those unbridled cataracts whose roar breaks the silence of the foothills. DRY CKEEK, June 16th, 1871. ED. EXPOSITOR :- Dear Sir-I perceive by your last issue that Progress, like Monsieur Tonson, has come again. I think his letter commences with an error. He says, "he has taken up the gauntlet." Now, my idea is, that he was the one to throw it down, and I believe the majority of our county officials bear me out in that

out I have not one idea worthy of a common school-boy. I acknowledge the corn "Tis true 'tis a pity, a pity 'tis 'tis true,"
But the gentleman should bear in mind that sportsmen don't generally use big guns to shoot small game, and since read very small game indeed, for such a rehash principal roads sor a at these of exploded fallacies and stale, worn out repeated again and again by its advocates I believe by the San Francisco and San Jose Railroad Railroad Company down to the last Stockton swindle, or later still when the Railroad lords were found out stuffing the ballot-box at the last named city-but facts have invariably given them the lie The theory is plausible, but like many others it don't work right As for counties paying their bonds out of taxes got from corporations, that is played out, an I am astonished to see those old our water supply. But to divert them arguments revamped and passed off for from their beds at the upper edge of the agricultural belt and carry them to other sections of the State would be to depopulate the sections of the State would be to depopulate the sections of the State would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the state would be to depopulate the sections of the sect gation and an insult to the intelligence of this community to answer such stuff at this late day, and I for one shall certainly not attempt it; qib a sist of beobless of

As for Gov. Haight, the charge against him of having signed some railroad bills is certainly not in his favor; like all men I suppose he is liable to err, but when from the length and breadth of the State us H. PANOCHE, June 16, 1871.

ED. EXPOSITOR :- A case of suicide occurred on Sunday, June 11th, at the house of David Dixon, in Vallicites Valley, in this County, about sixteen miles from here, the particulars of which it might be proper to publish. An inquest was held on the body during the following day by Justice Gove, of Panoche Valley, when the following facts were elicited:

MUCH SHEEP.—Twenty thousand head of sheep from south of King's river, in Tulare county, are on their way through Fresno county. They crossed the San Joaquin at the Millerton ferry on Sunday and Monday. They are being driven across the mountains for pasturage.

WE were shown last Friday some fine specimets of coarse gold, taken from a quartz vein near the Fresno river by Mr. L. Pemberton & Co. Mr. P. is an old resident and well known prospector, having worked for years without success. We trust fortune has favored him in his declining years. Our informant says the vein so far is very rich.

Changed Hands.—We learn that our good friend, Mr. Elias Jacob, has purchased the Kings' River Flouring Mills, which establishment he intends improving and making a first class mill of. Mr. Jacob is energetic and has plenty of means to do all that he proposes, and all who know him have confidence in his running the concern right up to the

LARGE SNAKE .-- Messrs. Long and Chambers, while in the woods a few days since, killed a large snake measuring 84 feet in length, and about 16 inches in circumference; its appearance was similar to a rattlesnake, its skin having a more reddish cast, and also two small, whitishgrey rings upon its neck. It is known to our old Californians as the California anaconda. It has been many years since one of its character has been seen or heard of in this region.

Boreas are been cutting up his mad freaks in this vicinity during the past few days. During Sunday night blew a perfect hurricane, and the dust filled the air in an almost solid body. We have heard of several buildings being blown down in different parts of the county. Leroy Dennis's new house on the Fresno was thrown down. Such furious wind storms as have prevailed in this section lately are new to the oldest resi-

All he has to do is to go quickly to the agent in this town and buy one or more of the aforesaid tickets. Don't fail to notice the splendid coin prizes paid out by the So-ciety at their drawing in January last, a sure guarantee of fairness and honesty,

OED prejudices are dying out. New facts are killing them. The idea that invalids weakened by disease can be relieved by prostrating them with destruc-tive drugs, is no longer entertained except by monomaniacs. Ever since the introduction of Dr. Walker's Vinegar Bitters, it has been obvious that their regu lating and invigorating properties are all-sufficient for the cure of chronic indigestion, rheumatism, constipation, diarrhea, nervous affections and malarious fevers, and they are now the standard remedy for these complaints in every section of the Union.

FINE CROPS .- We learn that the farmers in the mountains have better crops this season than ever before. Mr. Abe
Yancey claims to have the best field of
grain, wheat and rye, in Fresno county,
and Col. Burrough has about two humdred acres of as fine barley as ever grew
out-doors. On King's river, where the
fields are convenient for irrigation, excellent crops will be raised. Taking
these King's river fields as a sample, what
will Fresno county he able to do when her
broad plains are thoroughly irrigated by
the ghundant waters of the San Joaquin broad plains are thoroughly irrigated by the abundant waters of the San Joaquin and Kings' rivers? Will it not be one of the most prosperous counties in the State?

by enterprising settlers. We were shown over the works, examined the mill, which, in our copinion, is one of the best four stamp steam mills in the county, working the mine. two large arastras and pumping the mine, the water hoisted being more than enough for all practical purposes. The stamps are set upon the line of the vein, close to the mouth of the main shaft, and the quartz fed to the stamps as hoisted to the surface. Capt. Smith, our chaperon, conducted us into the mine, the declination of the quartz appeared to us about 20 deg., and is one of the most regular I deg., and is one of the most regular I have ever seen; from the surface, for a depth of eighty feet, it scarcely varies from eight feet in thickness. It is of the quality known to our miners as "soft laminated quartz." We took from the gorge several pieces of rock and prospected it, and found it in each instance fair paying and of a remunerative character. It pleases us to note the enterprise acter. It pleases us to note the enterprise and energy displayed by this company, for we are firm believers that the day is not far distant when the attention of the industrious miner will be turned to the benefits to be derived from the mountains and foothills of Fresno county.

ARION PIANO

IS SUPERIOR TO ALL OTHERS.

The ARION PIANO-FORTE has Greater Power than any other Piano-Forte manufactured

It Will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and therefore more durable than any instrument constructed in the usual modern style. The arrangement of the Agrafic, the manner of stringing, the form and peculiar form and arrangement of the Iron Frame,

Supersedes all Others.

The use of a bar, (which is a part of the Iron Frame) on a line with the heavy steel stringing, gives

Where most needed, and in this respect all other Planos fail.

The construction of the WREST PLANK, into which the Tuning Pins are inserted, is such that it is impossible for the pins to become loosened, or the Wrest Plank itself to split, as is too often the case in other Plano Fortes,

The Extraordina.y Evenness

Throughout the entire scale, the excellent Singing Quality, the

Length and Purity of Vibration.

All go to prove what we claim, viz: that the ARION PIANO-FORTE

Is the Best Instrument manufactured,

THE PATENT

ARION PIANOS

Are used exclusively in the American

Conservatories of Music of New York City.

The most severe test a Piano can receive is constant use in a Conservatory.

Read the Following: It affords me much pleasure to give you, in these few lines, a very sincere testimon at for the Piano-Fortes of your manufacture. We have now used the "Patent Arion Pianos" in our Conservatories for a year, and have had a fair opportunity of testing their durability during that

now used the "Patent Arion Planos" in our Constanting their durability during that time. The Planos have been played upon almost constantly from morning till night, and a Plano must indeed be a good one when it will bear such constant use without showing signs of defection. As for remaining in tune, it outrivals any Plano known to me.

Their peculiar sweetness of tone in the treble, (as compared to other Planos with the ordinary metal agraffe arrangement,) is so striking that I have had pupils remark, while aking their lessons, that although they had at home what they supposed to be o e of the be I makes of Planos, still he treble was very wiry-toned compared with the ARION.

What makes 'hem still more desirable is their uniform volume of tone, which enables an artist to perform a composition in its true character. In total, I can conscientiously endorse all that is claimed by the ARION PLANO-FORTE COMPANY for their superb Instruments, as I consider them superior to any o'her make.

Congratulating you upon the great success you have obtsiked in the manufacture of so perfect an instrument, I remain yours

AGENTS WANTED.

We want first class and responsible Agents in every city and town where we have not already appointed them.

We Have Just Published Our Annual Illustrated Famphlet, which contains a full-description of the interior construction of the PATENT ARION PIANO-FORTE, and all the other leading Pianos of the principal makes; illustrated with cuts, thus contrasting the Arion with all other first class Pianos, and proving

WHY AND WHERE

Our Pianos are superior to any in the market.

Our pamphlet contains engravings of all the different styles of instruments that we manufacture, giving a full description of each, so that a person can select the style he may desire to order, with the assurance that they will receive just as good a Piano as if they were to our warerooms to select it. We have sold over Five Thousand Pianos, many of them being shipped great distances and we have never yet received the first complaint. As we give a written guarantee with every Piano we manufacture, for five years, the purchaser runs no risk. Don't fail to write for our passphlet, which we mail Free, and when you write state what paper you saw this notice in.

N. B.—We caution the public from purchasing a cheap Piano, which has recently been put in the market, bearing the name "Arion," All genuine Arion Pianos bear the name "Patent Arion," and gan only be purchased from our New York Warerooms, or our authorized Agents throughout the United States.

We, the undersigned, practicing physicians of San Francisco, having examined and witnessed the operation of the We the undersigned, practicing physicians of San Francisco, having examined and witnessed the operation of the "MILLS ADJUSTABLE TREADLE"

For Sewing Machines, take pleasure in giving our testimony to the great value of the improvement, in a sanitary point of view. The peculiar feature of this new treadle is that The footboard is made adjustable, both vertically an congitudinally; so that whatever the size of the foot of shee the true center of mo ion of the foot may always be brought to coincide with the center of motion of the treadle, and held there thus permitting the feet to move on their natural centers without having first to overcome the inertia and weight of the heavier limbs.

In our opinion it possess the following important advantages over the ordinary treadle:

First, Itsaves the excessive labor and waste of power consumed in keeping up the rapidity aiternating motion of the lower limbs and body whenever the machine is run with any speed.

Second, It avoids the frequent and serious njury to female health resulting directly from that motion. By the general adoption of the treadle we believe the only serious objection to the coot power.

By the general adoption of the treadle we be-lieve the only serious objection to the goot power sewing machine will be removed, and that so far from being prejudicial to the health of the opera-tor, its use will prove as harmless and positively beneficial as other physical exercise, tending di-rectly to develop the muscles of the calf of the legs, strength in the ankle, restore the elasticity of the foot, and promote circulation in the ex-tremetics. I have carefully examined the new treadle attached to the Howe Sewing Machines, and consider it a most valuable improvement, doing away with most of the motion of the back and pelvis, which is unavoidable in operating the old style treadle, and which has proven so detrim notal to health. I cheer ally recommend it to those who work much with sewing machines, believing that it will save them much trouble.

The mule stood on the steamboat deck— The land he would not tread— They pulled the halter round his neck, And cracked him o'er the head.

But obstinate and braced he stood. As born the scene to rule,
A creature of the hold-back brood,
A stubborn, steadfast mule.

They cursed and swore—he would not go
Until he felt inclined; And though they thundered blow on blow,
He altered not his mind.

The deck-hand to the shore complained. "The varmint's bound to stay!"
And still upon the critter's hide
The sounding lash made play.

His master from the shore replied, "The boat's about to sail: As other means in vain you've tried. Suppose you twist his tail—

"It's likely that you'll make him land."
The deck-hand, brave, though pale.
The nearer drew, with outstretched hand,
To make the twist avail.

There came a kick of thunder sound! The deck hand—where was he?

Ask of the waves that far around,
Beheld him in the sea!

A moment, not a voice was heard;
But winked the mule his eye.
As though to ask, to these around—
"Now, how was that for high?"

"And end the cussed brute!" But the noblest soul that perished there Was he who tried to do't! PROVERBS.—Look most to your spend-

HOW MUCH BREAD A BARREL OF FLOUR WILL MAKE .- They have had a bread controversy in Washington City Some weeks ago fault was found with the bakers for raising the price of bread; and, a practical baker taking the ground that bread could be made for five cents a loat, while others claimed it could not, to settle the matter it was arranged that three barrels of flour should be purchased and baked at the government bakery, the officer in charge to be the arbiter. The result was a yield of 260 pound loaves of bread to the barrel of flour, costing \$7 75 per barrel. This, it is stated, is at variance with the past experience of the Washington bakers, who have not been able to obtain more than 250 pound leaves from the barrel in the regular course of business.

A LITTLE five-year-old-boy was being instructed in morals by his grandmother. The old lady told him that all such terms as "by golly," "by jingo," "by thunder," etc., were only minced oaths, and but little better than any other profanity. In fact, she said, he could tell a profane oath by the prefix "by." All such were oaths "Well, then, grandmother," said the little hopeful, "there's a big oath in the newspapers, 'By telegraph.'" The old lady gave it up, and the boy is be wildered on

THE Chicago Tribune makes an interesting estimate of the gain in Congressional representation which must accrue to the Southern States under the new census. By the emancipation of the slave population two-fifths of the aggregate, or say 1,680,000, have been added to the representative basis of these States. In 1860 out of 253 Representatives, the slaveholding States had 84, and under the census of 1870 they are entitled to 104, out of sive to me than to be greeted in that re-280 members, or ten more than one third ligious way, "Well, brother, how is your of the whole house.

HOUSE, FARM AND GARDEN.

GLYCERINE AS FOOD AND MEDICINE.-Glycerine is one of the most valuable ar ticles our pharmacopia can boast, while as an article of food, it is one of the best and most fattening nutrients. Sweet oil, or olive oil, has for ages been an article of daily diet in Palestine and other old countries, and glycerine is essence of it. It is a perfectly neutral and bland fluid, and the most penetrating, perhaps, in all nature. Oil, itself, will penetrate where water will not, and glycerine, which may be considered the etherial part of oil, has this property to a most remarkable degree-it penetrates the solid bone. A medical journal tells us that if poured into a mixture of blood and matter, such as is expectorated from consumptive lungs, it will get between the globules of each and show them with greater distinctness. Being thus penetrating, it is the very best application for feverish sores, for inflamed or dry surfaces, simply from its quality of penetration and evaporability. If applied with a common brush to the surface of the throat, in diptheria, in a few minutes its permeative quality enables it to sink between the molecules of the false membranes, dissolving and detaching it in a few hours. It is the best application known in case of burns.

WATERING PLANTS WITH IRON.-It is stated as a new discovery that wonderful effects may be obtained by watering fruit trees and vegetables with a solution of sulphate of iron. Under this system beans will grow to nearly double the size, and will acquire a much more savory taste. The pear seems to be particularly well adapted for this treatment. Old nails thrown into water and left to rust there will impart to it all the necessary qualities for forcing vegetables as described.

A GENTLEMAN of large experience, and fully as humane as most of us, says he gets rid of rats by putting potash in their runs and holes. The poor wretches ge: it on their feet and over their fur, then they lick it and don't like the taste of it it burns them somewhat, and the more they see of it the less they like it; so they clear out almost as soon as the application is made. Te get rid of mice the same person uses tartar-emetic, mingled with any favorite food; they take it, take sick, and take their leave.

CHARCOAL. - Nothing promotes the growth of pigs or fattens swine, intended for the tub, equal to the occasional mixture of common charcoal with their ordinary food. Geese and other fowls, with plenty of charcoal, will grow fat in a fortnight if fed on one-third of their usual food. Hogs eat it voraciously in a short time, and are never sick when it is given to them.

SMALL CHANGE.—The Sonora Democrat f June 10th thus begs for coppers:

We may stand on our "'49" dignity when a pinch of gold dust was the style in payment for a drink of whisky a little onger, but we do stand in need of some currency smaller even than the "bit." We need the nickel. We have not so many pinches of gold dust to spare as we had twenty-odd years ago. Give us the wherewithal to buy three cents and five cents worth of fruit. It rots now for the lack of such fractional currency. Our bit system is a piece of antiquated expensiveness. Our fruit and vegetable dealers would be as rejoiced to receive \$50 in fractionals of two, three and five cents as they would in quarters. Introduce the nickel. Little drops of rain furnish as refreshing a shower of rain as big ones. So will little drops of money. Let us no longer despise the day of small things. This is a world of changes; bring in the small change.

To husband strength, mental and physical-to govern power, passion, every impulse and every attribute of our nature, so they may ever be with us the reserve strength for use and enjoyment-is one of the chief secrets of happiness. Excess in pleasure or employment is the bane of life. To stop a little short of the point of depletion is the golden secret.

RARE SPORT FOR THE NEGROES .- Nothing makes a plantation negro in the South laugh more immoderately than to witness the awkward attempts of a newly imported Chinaman to manage a mule. The Chinaman don't understand the mule nor the mule the Chinaman, while the negro is a complete adept in that branch of plantation labor.

A DISGUSTED FATHER.—The editor of an Eastern paper received the following note from a citizen of his town: "Mr. Editur-what did you print my family matters in yure paper fur it is none yure biziness if my wife did have twins I pay for them youl git yure hed punched you had better attend to yer own biziness is the advice of J. AYER'S SARSAPARILLA. FOR PURIFYING THE BLOOD!

The reputation this

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous.—Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous a lections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tennant of the organism undermines the constitution, without exciting a suspicion of its presence. Again, it seems to breed infectien throughout the body, and then, on some favorable occasion, rapidly develops in one or other of its hideous forms, either on the surface or among the virals. In the latter, tubercles may be suddenly deposit d in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear.—Persons afflicted with the following complaints generally find limmediate relief and at length cure by the use of this SARSA-'ARILLA'. St. Anthony's Fire, Rose or Erysipelas, Sore Eyes, Sore Ears, Tetter, Salt Rheum, Scald Head, Ringworm and other visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Bropsy, Heart Disease, Firs. Epilepsy, Neuralgia and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal or Mercurial Diseases are cured by it, though a long time is required for subduing these maladies by any medicine. But long, continued ase of this medicine will cure the complaint. Leucorrhoea or Whites, Uterine Ulcerations and Female Diseases are commonly soon reliev d and ultimately oured by its purifying and Livigorating effect

FOR SALE. OUR DRUG RUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Welker's California Vegetable Vinegar Bitters, now spread over the United States and countries far beyonnd; we are necessitated to devote our intire time to said business.

We are the oldest drug firm on the Pacific Coast and the only one continuous under the same proprietors since 1849, and have determined to sell our large, prosperous and well established business on favorable terms.

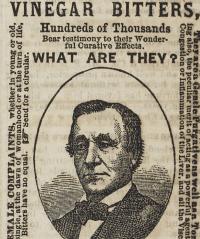

This is a rare opportunity for men with means of entering into a profitable business with advantages never before offered.

THEY ARE NOT A VILE OF THEY ARE NOT A VILE OF THEY ARE FANCY OR IN K.

Made of Poor Rum, Wasker, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Ton-ics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRIN-CIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. Noperson can take these Bitters according to direc-

tion and remain long unwell. For Inflammatory and Chronic Rhoumatism and Gout, Dyspepsia or Indi-gestion, Bilious, Remittent and Inter-mittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bit-ters have been most successful. Such Dis-cases are caused by Vitinted Blood, which is generally produced by derangement of the

Digestive Organs.

DYSPEPSIA OR INDIGESTION. Headache Pain in the Shoulders, Coughs, Tight-ness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Month Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the off-

springs of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to

Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects. Cleanse the Vitiated Blood whenever you find

its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow. PIN, TAPE and other WORMS, lurking in

the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle. J. WALKER, Proprietor. R. H.
